### SUMMARY

Creative Front-End and Mobile Developer with a background in Computer Science and Statistics. Skilled in building responsive web interfaces and developing mobile applications using Flutter for cross-platform apps and Kotlin for native Android development. Passionate about intuitive design, clean and maintainable code, and delivering engaging user experiences. Known for creativity, fast learning, and strong collaboration in team environments. Currently seeking opportunities to contribute to creative, user-centered mobile and web projects.

### EDUCATION

**Alexandria University**

**Sep 2021 - Sep 2025**

**Faculty Of Science**

- Major: Computer Science
- Minor: Statistics

Grade: Excellent ( CGPA 3.7)

## PROFESSIONAL EXPERIENCE AND PROJECTS

### Front-End Web Developer

#### Semi Colon Project (Volunteer Work)

Jun 2023 - Oct 2023

Built a fully functional web-based dashboard as part of a 3 developer team using HTML, CSS, JavaScript, Tailwind CSS, and React. Contributed to building responsive UI components, implementing design systems, and ensuring consistency across the interface. The project was recognized with the "Best Team" award for outstanding collaboration and technical execution.

### Android Development Trainee,

#### Information Technology Institute (ITI) - Summer Training | Team Leader

Jul 2024 - Jul 2024

Completed a 120-hour Android Application Development course using Kotlin. Built 3+ real-world Android applications, focusing on clean architecture and Kotlin best practices. Gained hands-on experience with Android Studio and core mobile development concepts. Served as team leader for a fully functional Recipe App; managed task distribution, guided team members, and ensured timely delivery with clean, maintainable code and an intuitive user interface.

### Complete Flutter & Dart Development Course

Sep 2024 - Dec 2024

Completed 100% of a comprehensive Flutter & Dart development course covering beginner to advanced levels. Focused on building cross-platform Android and iOS applications using a single codebase, applying clean code practices, and completing hands-on projects to prepare for freelance and professional opportunities.

### Servix App (Graduation Project)

**Technologies:** Flutter, Dart, Firebase (Firestore, Authentication), Cloudinary, Shared Preferences, Provider/BLoC

**Project Overview:** Servix is a comprehensive home services mobile application designed for both clients and technicians. The app allows users to:

- Book and complete service orders with status tracking
- Rate and review technicians after service completion
- Join a community forum to ask questions and share knowledge
- Interact with a smart AI assistant for help and troubleshooting
- Switch between light and dark themes and multiple languages

## CERTIFICATIONS & AWARDS

- Best Team Award - Frontend Track, Season 3, Semi Colon Civil Work
- Android Application Development Using Kotlin Information Technology Institute (ITI) | Summer 2024 | 120 Hours
